[Site before cleanup.jpg](#)

I wanted to share with you some images from near the start of the project, and the end of the project. We have received weekly reports from our contractor throughout the project. The first item is from March (scroll through the text to view the site images at that time), last three images are from yesterday or so. I think you'll be pleased. (some of you may have received the weekly update already from Bruce.)

Cheers,

Sally
